

SPEC SHEET : RUBBER SHEET SERIES : KN5402/NITRILE RUBBER

Material :

Nitrile compounds are very widely used general purpose sealing materials with the benefit of good mechanical properties, reasonable resilience, good wear properties and resistance to most mineral-based oils and greases.

Applications : Suitable for mineral oils and greases, LPG, fuel oils, water, dilute acids, water and glycol-based hydraulic fluids etc.

Not suitable for : Aromatic hydrocarbons (benzene, high octane gasoline etc.), polar solvents, glycol-based brake fluid, high temperatures.

SPECIFICATION

Temperature :	-20°C to 100°C
Tensile Strength	3 Mpa
Elongation :	200% (65 ±5)
Density :	1.5 g/cc
